to the Kids**

Just for Special Kids

Hi, we're Eunie Kratky (EK) and Guy Butcher (GB). Our crazy plan is to drive a 1930's Austin Seven from Halifax (Nova Scotia) to Alaska before turning south to Tierra del Fuego, at the very bottom of South America. The total distance is expected to be about 25,000 miles or 40,000 kilometres. We're setting off in July 2012 (which is also the 90th Anniversary of the first Austin 7).

Through this adventure we wish to raise funds to help children & young people with special or additional needs and their families. To achieve this, we have set up bespk.com (Bringing Extra to Special Kids) – a non profit organisation. The target is to raise £1 million pounds. All personal costs will be funded by ourselves.

The car is a 1938/28 Austin Seven which has been completely rebuilt and specially prepared for the adventure with the help and advice of many friends. The car was chosen for its remarkable abilities and the ready availability of spares. It has the advantage of being both small and light but is capable of travelling anywhere.
